MY STORY | STUDENT PROFILE

DENENIZE BASIL

LUTSEL K'E DENE FIRST NATION CITIZEN,
RENEWABLE RESOURCES MANAGEMENT STUDENT

"I am studying at Yukon College because I want to make a difference in my community. My motivation to keep studying is to make my grandparents proud. They believed in me and gave me the encouragement I needed to believe in myself."

Denenize Basil is a citizen of the Lutsel k'e Dene First Nation in the Northwest Territories. His future goal is to become a renewable resource officer or conservation officer for his First Nation or for the territorial government. Dene has assisted Yukon College's Industrial Research Chair in Northern Energy Innovation with Energy Literacy and Demand-Side Management projects, as well as supporting the Northern Climate Exchange with the Chu äyi ät'et (The Water in Me) project.

It's good to see you.

We would like to thank Yukon First Nations people for welcoming the Yukon College community onto their traditional territories to share educational experiences. We look forward to continuing to grow our partnerships for years to come.

We recognize that a greater understanding and awareness of Yukon First Nations history, culture, and journey towards self-determination will help build positive relationships among all Yukon citizens.

HÄN

Find your path...

Earn a bachelor's degree without leaving the Yukon. Our degrees offer hands-on, experiential opportunities and theoretical knowledge that reflect the cultures and landscape of the North.

Earn a diploma or certificate to set you apart from other job seekers. We offer a wide range of choices for you to earn a certificate or diploma. Many of these programs are flexible so you can study full-time or part-time.

Earn your apprenticeship or prepare for a future in the mining industry. Because of our state-of-the-art facilities, mobile classrooms, and partnerships with industry, we can provide high-calibre training for the jobs of tomorrow.

Explore new skills and training to complement your career. We offer a wide range of training that will enhance your skills and your employability.

Get a great foundation at Yukon College. Many course credits can be transferred to post-secondary institutions across Canada and Alaska.

Get a head start on your College career while you're still in high school. Take up to two College courses that will count towards your high school graduation with Yukon College's Dual Credit options.

Flexible, interactive online learning through real-time scheduled classes or at your own pace. Dedicated instructors and mentors are on hand to support distance learning success.

We have 55 years of experience and expertise in the North
GROW, THRIVE AND EXCEL WITH US

Graduate from Yukon University

Yukon College will become YukonU, the only university in Canada's North, by 2020. For Yukon students, we'll be your university, close to home. For Canadian and international students, you'll have more opportunities to learn from Yukon's expertise in Indigenous self-determination, sustainable resource development, and the study of climate change.

MORE » yukonuniversity.ca

Learn to lead through Indigenous Self-Determination

Get the tools you need to make change in your community. Specialized courses and training in Indigenous Governance and Self-Determination will equip you with the knowledge, values, and skills needed to become an influential leader, both in an Indigenous and non-Indigenous setting.

The Bachelor of Arts in Indigenous Governance was developed in partnership with all 14 Yukon First Nation governments. This new degree provides opportunities for tomorrow's trailblazers to learn from today's leaders.

MORE » yukoncollege.yk.ca/leaders

Become a steward of our land, water, and minerals

We partner with industry, governments, and First Nations to provide education, training, and research opportunities to support sustainable resource development and stewardship.

The Centre for Northern Innovation in Mining offers unique northern programming and supports research in mine reclamation and bioremediation, alternative energy, and cold climate and technology innovation.

MORE » yukoncollege.yk.ca/redoefine

Study our changing climate and its impact on northerners

Here in northern Canada, we see climate change affecting our landscape and our lives. For close to 20 years, Yukon College has been recognized as a leader in climate change research in both the natural and social sciences.

The Yukon Research Centre at Yukon College investigates how our changing environment is affecting our way of life in terms of community health, impacts on traditional culture and practices, policy, economy and food security.

And, we are the only institution in northern Canada to offer a post-degree certificate in Climate Change Policy. Students will graduate with the knowledge required to shape policy that will protect communities and the environment for future generations.

MORE » yukoncollege.yk.ca/forefront

What's a hybrid university? Ours is.

Students will be able to access degree, diploma, certificate, trades and academic upgrading programming. Our hybrid university will offer a pathway for every learner. Not any university, a **hybrid** university.

YukonUniversity.ca

1963

Yukon College began as the Whitehorse Vocational Training School, originally located on the banks of the Yukon River in Riverdale.

1983

Yukon College is officially established through a government act.

1980s-2000s

Community campuses open throughout Yukon.

1988

The Whitehorse campus moves to its current location and opens with a celebration potlatch. Elder Angela Sidney names the new campus Ayamdigut, a Tlingit word meaning "she got up and went," referencing a story about the Killer Whale Clan House which was moved because it was too close to a river bank.

1992

The Northern Research Institute, now the Yukon Research Centre, is established to answer questions in the North, for the North, and by the North.

1990s

Yukon College partners with other Canadian universities to co-deliver bachelor's degrees in Social Work and Education.

2006

A committee with representation from all 14 Yukon First Nations is created to guide programming and services.

2007

The School of Visual Arts opens in Dawson City with programming created and delivered in partnership with the Dawson City Arts Society and Tr'ondëk Hwëch'in.

2018

Yukon College offers its first independently credentialed degree, the Bachelor of Arts in Indigenous Governance.

YUKON UNIVERSITY 2020

Building on our proud history of excellence in research and education, Yukon College will become Yukon University.

YUKON

Yours to Explore

WE HAVE SPACE

Yukon has more than **40,000 people** and a **land area of 474,713 km²** — this means our population density is 0.1 person per square kilometre.

WE HAVE MOUNTAINS

Yukon has **9 of the 10 highest mountains in Canada**, including **Mt. Logan** — the second-highest peak in North America.

WE HAVE LIGHT

Yukon enjoys **24 hours of daylight during summer solstice** and **6 hours during winter solstice**.

WE HAVE LOTS TO DO

Yukon has **countless kilometers of breathtaking wilderness to explore** along with **festivals, events, dining, shopping, and opportunities to explore arts and culture in the North**.

MY STORY | STUDENT PROFILE

CHARLENE BAKER
SELKIRK FIRST NATION MEMBER,
EDUCATION — YUKON NATIVE TEACHER (YNTEP) STUDENT

"The only way to keep a culture alive is to give it to the next generation. If there's an opportunity to help, I will. I love teaching youth and children — they are like sponges. Tell them stories. Guide them. Some people say our culture has been lost, but I think it's just asleep. Education is how we are waking it up."

Charlene Baker is a third-year student in the YNTEP program. She started the Heen Club on campus to share her culture with other students, staff, and faculty. When she graduates from Yukon College she wants to teach in the Yukon.

Campuses

Yukon College's Ayamdigut Campus is situated in Whitehorse, close to amenities and attractions, with breathtaking views of the surrounding mountains. There are opportunities for hiking, biking, skiing, snowshoeing or quiet reflection on the forested trails that crisscross the wetlands near campus.

Our community campuses offer countless opportunities for activities, recreation and exploration.

MORE » yukoncollege.yk.ca/community-education

Books and Beyond

Ayamdigut Campus has a new state-of-the-art space designed just for you. The Innovation Commons has lots of room for studying — alone or in groups — with the technology you'll need to succeed.

MORE » yukoncollege.yk.ca/innovation-commons

Campus Housing

If you're a full-time student at Ayamdigut Campus, you're eligible for Campus Housing. When you live on campus, you are steps away from your classes, your study spaces, and campus activities.

MORE » yukoncollege.yk.ca/campus-housing

Transportation

If you're a full-time student at Ayamdigut Campus, your I.D. is also your ticket to ride the City of Whitehorse transit system. Tickets and passes can also be purchased at our bookstore. Find transit schedules at whitehorse.ca.

Campus Security

Officers are on duty 24-7 to keep Ayamdigut Campus safe and secure.

MORE » yukoncollege.yk.ca/safety-security

Eat at Ayamdigut

Grab a snack or a great cup of coffee at our bookstore. Enjoy fresh baked goods, 'hot order' lunch specials and grab 'n' go items from the Kinnikinnick Kaff. Or, treat yourself with a meal in our dining room, the Hilltop Bistro, a training facility for our Culinary Arts students.

MORE » yukoncollege.yk.ca/food-and-drink

Student Activities and Recreation

Get the most out of your college experience by getting involved! Plan events, organize campaigns, join a student club, get involved with the Student Union, and enjoy our fitness programming and facilities at Ayamdigut Campus.

Community EDUCATION

Make a difference in your community.

Supportive learning across the territory

Yukon College has 13 campuses located throughout the Yukon. Each campus offers distance and in-person delivery options, so you can upgrade your education, earn a degree, get certified or learn a new skill — all while living in your home community.

Programs and courses at each campus are tailored to meet the needs of the community and may include:

- Bachelor of Arts in Indigenous Governance
- Building Maintainer
- College Access Pathways
- Community Education and Employment Support
- Early Learning and Childcare
- Environmental Monitoring
- Food Safe
- Heavy Equipment Technician
- Mining Essentials
- Office Administration
- Yukon Water and Wastewater Operator

Distance Learning

Gain the skills and experience to make a difference in your community, from your community.

Distance learning, or online learning, provides students with access to class instruction over the Internet. You'll use online video chats, discussion forums and email to communicate throughout your program or course.

Get help from wherever you are

Academic and career supports are available in-person and by distance to help you throughout your studies:

- Campus Coordinators, as well as Career and Life and E-Learning Mentors are on-hand to support your personal and academic success.
- Dedicated instructors are available to answer your questions and provide feedback on coursework.
- Tutoring and study skills help are available by phone, email, video-conference or in-person.

RESEARCH AND INNOVATION

STUDENT RESEARCH SNAPSHOT

SHARON BUSBY
GEOLOGICAL TECHNOLOGY DIPLOMA GRADUATE

"It was a great learning experience for me to help with research that could potentially provide new insight into the inner workings of the earth. I came to the College with an interest in geology, and it was so encouraging for me to be able to work alongside scientists during this project — it gave me confidence that I could carry on with this type of work."

Sharon Busby assisted with field work while completing her Geological Technology Diploma. Busby came from Manitoba to study at the College after reading about the work and research opportunities available to students.

Finding Northern Solutions to Northern Problems

Yukon College is leading the way in research in the North. We partner with First Nations, government, other academic institutions, and industry to investigate questions that matter to northerners.

Yukon College supports faculty, researchers and students who are exploring things like:

- How thawing permafrost affects Yukon's highways and buildings.
- How to use Traditional Knowledge to better understand wildlife habitat changes.
- Using renewable energy in remote communities.
- Mine water remediation in cold climates.
- Natural history specimen data management.
- Strengths, challenges and uniqueness of northern social work practice.
- Geochemical characterization of surface-groundwater interactions.

And much more.

MORE » yukoncollege.yk.ca/research

Through classroom, laboratory, field and community experience, Yukon College students learn alongside our faculty, researchers, and research partners who are at the forefront of northern research and innovation.

Student research assistants have the opportunity to work as part of a team of researchers committed to understanding the North and building our northern capacity and resilience.

MY STORY | RESEARCH LEADER PROFILE

DR. BRONWYN HANCOCK
ASSOCIATE VICE-PRESIDENT, RESEARCH DEVELOPMENT

"I love working with people who are passionate about what they do. That's what built this place. There are tremendous opportunities for students to be involved in exciting, ground-breaking research projects through the College. You can work on research that matters to you in your community and has an impact on the lives of northerners."

After earning a doctorate in Earth Sciences, Bronwyn Hancock came to the Yukon to do field research and found a home at the Yukon Research Centre. She became Manager of the Northern Climate ExChange before moving into her current role. Bronwyn also served on the Federal Expert Panel on Climate Change Adaptation and Resilience Results in 2017 and 2018.

Yukon College offers a variety of academic, applied and vocational programs and career training to suit every learner.

MY STORY | INSTRUCTOR PROFILE

LIANNE MARIE LEDA CHARLIE
TAGÉ CHO HUDĀN (BIG RIVER PEOPLE),
INSTRUCTOR, POLITICAL SCIENCE

"I encourage you to creatively explore your personal connection to what it is we're learning — politics are personal and the personal is political. I believe that you, as a student, are coming to the classroom with experiences that have value and that shape our learning environment. Whenever possible, your experiences and interests, as well as Indigenous theories, languages, cultural practices and approaches guide how we learn in the classroom."

Lianne Marie Leda Charlie is Wolf Clan and a descendant of the Tagé Cho Hudān (Big River People), Northern Tutchone-speaking people in the Yukon. She is the granddaughter of Leda Jimmy of Little Salmon River and Big Salmon Charlie of Big Salmon River on her father's side and Donna Olsen (Danish) and Benjamin Larusson (Icelandic) on her mother's side. She was born in Whitehorse, Yukon to her mother, Luanna Larusson, and late father, Peter Charlie. Lianne is a mother, artist, a PhD candidate in the Indigenous Politics Program at the University of Hawai'i at Mānoa, and a Political Science instructor at Yukon College.

Training made for Yukon's mining industry.

Yukon College's Centre for Northern Innovation in Mining (CNIM) fosters a skilled workforce by bringing knowledgeable and experienced instructors to your door-step.

MY STORY | STUDENT PROFILE

ALAN BINGER

GEOLOGICAL TECHNOLOGY STUDENT

"I started the program because it piqued my interest. I went into it not knowing what to expect and it's been more than I could have imagined. The program includes a lot of field work where I got hands-on experience and even a helicopter training course. Now, I am planning to go on to complete my degree in geology, and I can definitely see myself working in the mining industry in the future."

Alan Binger, a current Geological Technology student, spent the summer working at Alexco's Keno Hill mine site as a geological technologist.

CHEALSEA JOHNNY

WHITE RIVER FIRST NATION CITIZEN,
CULINARY ARTS AND WELDING
PRE-APPRENTICESHIP GRADUATE

"If you want to do it, do it here! The people here are good. Everyone is super nice and if you need someone to talk to there's always someone to talk to. I was going to go outside to study welding, but I am so glad that I chose this College."

Chealsea Johnny, Upper Tanana, member of the White River First Nation, grew up in Beaver Creek, Yukon. She came to Yukon College for college upgrading, and studied culinary and welding. She is currently working toward earning her apprenticeship, and she is employed in a maintenance position at a mine site in western Yukon.

Canada's need for experienced pilots is beginning to out-pace the supply. Projections show that the industry will need an additional **7,300 PILOTS BY 2025.**

- According to a 2018 Labour Market Information Report by the Aviation and Aerospace Industries.

Human Resource firm Randstad ranked Administrative Assistants as one of the top 15 most in-demand jobs in Canada in 2018. "Administrative assistants are a cornerstone of the office workplace, and tech savvy candidates with an affinity for accounting are in high demand in 2018."

MY STORY | STUDENT PROFILE

AMBER POLSON
OFFICE ADMINISTRATION GRADUATE

"The program gave me a new skillset and new credentials. Even though I had experience working in an office before, I found some employers would not even look at my resume without that certificate. I found the coursework very practical, and the distance ed option allowed me to work full-time while making my career change. That was huge for me — it made a big difference."

Amber Polson was working as a GIS technician and a downturn in the economy made her look for a new in-demand career. She earned her Certificate in Office Administration in 2018, and now works at the Yukon Research Centre at Yukon College.

These programs connect the classroom to the community and the world around us. From Northern Studies to Criminology to Heritage and Culture, Liberal Arts courses will teach you to think critically and creatively.

Studying at Yukon College's School of Liberal Arts will open doors for you... literally. Many of the programs have field components which take place outdoors, on the land, where you'll learn by doing.

MY STORY | STUDENT PROFILE

IRA MAMIS

LIBERAL ARTS GRADUATE
BACHELOR OF SOCIAL WORK STUDENT

"I love it here! The classes are small and there is so much support from staff, and one-on-one time with instructors. The diversity is great. I find it inspiring to interact with other students who are committed to their education and improving themselves."

Ira was awarded a Yukon College Entrance Scholarship after graduating high school in 2016. She started her studies in the Liberal Arts program and, after graduating in 2018, transferred credits to the Bachelor of Social Work program, in which she is currently enrolled.

Alongside her classes, Ira volunteers with the Multicultural Centre of Yukon, and is a member of the WUSC Student refugee committee. At the College, she has supported both students and staff through her roles as Welcome Centre Host, Student Engagement Assistant, and Marketing Assistant.

MY STORY | STUDENT PROFILE

SONNY PARKER
NORTHERN ENVIRONMENTAL
AND CONSERVATION SCIENCES
STUDENT, RENEWABLE RESOURCES
MANAGEMENT GRADUATE

"In what other job can you get paid to rappel down a cliff to visit a falcon nest? I learned a lot about birds during this field research opportunity. One of the coolest parts is that birds are everywhere and they can be indicators of issues like climate change and habitat loss."

Sonny Parker assisted Biologist Dave Mossop in his Yukon bird population surveys during the summer of 2017. Sonny grew up in Dawson City and found his place at Yukon College in the Renewable Resources Management program where he was able to combine his love of the outdoors with his interests in science and nature photography. Transferring credits from RRMT, Sonny is currently enrolled in the Northern Environment and Conservation Sciences program.

MY STORY | INSTRUCTOR PROFILE

MARK CONNELL
FACULTY ADVISOR, EDUCATION —
YUKON NATIVE TEACHER (YNTEP)

"It is an honour and privilege to teach in a program that has such a unique vision and purpose — to combat the ongoing effects of colonization in schools. It is essential that future Yukon teachers are able to support the goals of Yukon First Nations communities. It is our hope that YNTEP graduates will be both excellent educators and agents of change in Yukon."

Mark Connell is a Faculty Advisor and Instructor with the YNTEP program. His graduate work and continued research explores an approach to teaching that seeks to reveal how the violence of colonial relationships continues to be expressed in schools. He has also led professional development sessions for schools; the Council of Yukon First Nations' Education Department; the staff of Crown-Indigenous Relations and Northern Affairs Canada, Yukon Region; and at the National Conference on Decolonizing the Classroom.

Professionally trained cooks and chefs are in high demand, from premier hotels and educational institutions to care facilities and cruise lines. Yukon College offers practical, hands-on training to prepare you for a rewarding career in food services.

CULINARY ARTS

CERTIFICATE | FULL-TIME (1 YEAR) | START SEPT

DISCOVER MORE ABOUT OUR PROGRAMS »
yukoncollege.yk.ca/study-culinary-arts

You'll get real-world experience providing services to the college community, and broaden your experience through a wide range of caterings, banquets and community events alongside professional chefs.

The Yukon School of Visual Arts (SOVA) offers you state-of-the-art facilities and world-class instruction tucked into the personalized learning environment of a small school and supportive northern community.

There is no place like Dawson. Situated within the traditional territory of the Tr'ondëk Hwëch'in, Dawson is a charming town with wooden sidewalks, dog teams, and a landscape that reflects thousands of years of Indigenous land use and over a century of gold mining activity.

At SOVA, you'll get individual attention and access to faculty that only a small school can provide. Our artist-in-residence program allows you to work closely with professional Canadian and international artists on special projects, studio assignments, and exhibitions. You'll have multiple chances to exhibit, both in Dawson and Whitehorse, throughout the year.

Complete your foundation year in Dawson City and transfer directly into the second year of Bachelor of Fine Art degrees at:

- Emily Carr University of Art and Design (Vancouver)
- OCAD University (Toronto)
- NSCAD University (Halifax)
- ACAD University (Calgary)
- Mount Allison University (Sackville)

VISUAL ARTS

CERTIFICATE | FULL-TIME (1 YEAR) | START SEPT

yukoncollege.yk.ca/study-visual-arts

MY STORY | STUDENT PROFILE

TAMIKA KNUTSON
 TR'ONDËK HWËCH'IN CITIZEN,
 VISUAL ARTS GRADUATE

"SOVA is really amazing—the classes are small and tight-knit so you get comfortable with everyone there, and when you're comfortable you have the space to push yourself and your art to new places. Art has always been an interest of mine and I never really gave it much thought until I went to SOVA, and now I am a full-time artist."

Tamika Knutson is a Tr'ondëk Hwëch'in artist from Dawson City, Yukon who attended Yukon SOVA, and transferred credits to complete her degree at NSCAD University in Halifax, Nova Scotia in April 2017. She has since worked at her local arts organization, exhibited her art around the Yukon and participated in markets and festivals. After spending a summer working as a full-time artist, she recently started working as an Arts Advisor at the Yukon Government and continues to pursue her art practice in her spare time.

MY STORY | STUDENT PROFILE

ERIC JUN HYEOK KIM

EDUCATION — YUKON NATIVE TEACHER (YNTEP) STUDENT

"I chose the College because it had the program I wanted, but the lower tuition prices make a big difference to how much money I have to spend. I also work part-time in the Welcome Centre and the Library, while studying full-time, and over the summer I am working as a camp counsellor at the YC Kids Camps. The jobs help cover my living expenses and they allow me to interact with people and help people — that's a big part of my life."

Eric Jun Hyeok Kim, originally from Seoul, South Korea, joined his sister in the Yukon after having lived in multiple places across the world. Eric's goal is to teach in the Yukon. He enrolled in YNTEP because it was important to him that the curriculum was relevant to the culture and the environment of the North. Along with his various roles at Yukon College, Eric also sits on the Board of Governors as a Student Representative for the 2018-19 term.

WHAT'S NEXT?

1. CHOOSE A PROGRAM

Decide what you want to study, check the admission requirements at yukoncollege.yk.ca/programs, and contact our enrollment services with questions.

Need advice? Contact recruitment@yukoncollege.yk.ca

2. APPLY ONLINE

at yukoncollege.yk.ca/apply

3. FINANCIAL ASSISTANCE

Find advice on financing your education at yukoncollege.yk.ca/financialaid

4. APPLY FOR CAMPUS HOUSING

Full-time students are eligible to live in Campus Housing, but space is limited. Visit yukoncollege.yk.ca/campus-housing

5. REGISTER FOR COURSES AND PAY TUITION

This step is important.

Once you've received your Acceptance Letter you must register for courses and pay your tuition to reserve your spot. Enrollment is limited.
